SUPPLEMENTAL EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nina Bains on 8/3/05.

The application has been amended as follows:

In the claims:

In claim 1 line 11 "source," and "wherein", –wherein the matrix is not inflatable independent of the balloon, and—was inserted.

Allowable Subject Matter

Claims 1-7,12-17,19-21 and 43-58 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach a combined radiation and drug delivery catheter that includes an ionizing radiation source coupleable to a catheter body, a source of at least one radiosensitizer, a balloon coupleable to the catheter body and a matrix formed over at least a portion of the balloon wherein the radiosensitizer source is in or beneath the matrix and the balloon is free of the radiosensitizer source in combination with the matrix not being inflatable independent of the balloon.

Art Unit: 3763

The prior art does not teach a combined radiation and drug delivery catheter that includes the combination of an ionizing radiation source coupleable to a catheter body, a source of at least one radiosensitizer, means for releasing the radiosensitizer to the body lumen, and perfusion threading on an outer surface of the means for releasing. It is noted that means for releasing has been interpreted in view of 112 6th paragraph.

The prior art most similar is to Winkler (USPN 6,200,257) which teaches a radiosensitizer source in or beneath a matrix and a balloon being free of the radiosensitizer source. However, as shown in figure 4B, the matrix is inflated independent of the balloon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571-272-4970. The examiner can normally be reached on Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas D. Lucchesi can be reached on 571-272-4977. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
